ABOUT US

Established in 2015, our company has successfully completed industrial and social projects that have proven themselves in the global market in terms of structures, designs, constructions and engineerings.

We have the capacity to take part in many projects in the construction industry with our professional ,technical staff, extensive construction machinery and construction equipment, and expert solution partners.

We bring the concept of the future to today by capturing the developing technology in heating-cooling, air conditioning and green building structures.

OUR SERVICE SECTORS

- Workplace and Living Centers
- Shopping Centers
- Residences and Dwellings
- Villas, Pools, Sports Centers
- Hospitals, Laboratories and Health Centers
- Factories
- Industrial Production Centers
- Restaurants, Hotels

OUR SERVICE AREAS

- Projects
- Consultancy
- Construction
- Architectural Decoration
- Consultancy and Project Follow-up
- Heating
- Cooling
- Ventilation
- Fire
- Natural Gas

ICETHERM

Structural Engineering
D.O.O.

Our priority is to provide optimum and economical solutions according to the needs in heating, cooling and conditioning systems and to achieve definitive results with environmentally friendly energy.

In heating, we have recently been adapting increasingly popular technologies (together with heat pumps and solar energy) in parallel with the energy needs in the global market. In addition, we offer solutions such as underfloor heating, ducted type VRF devices, collectors, air units, fan coils.

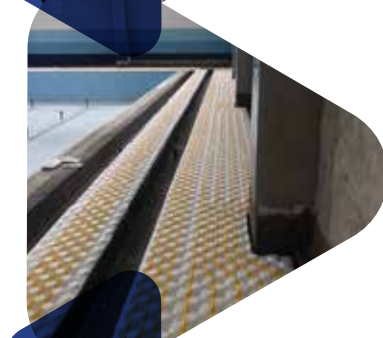

MECHANICAL SOLUTIONS

We simplify the obstacles by providing control of natural gas, pipe systems, ventilation, heating, cooling and widespread systems as a whole through automation in industrial and social projects.

Our first goal is to offer solutions that meet our needs by following the comfort and the day.

Some of our solutions in the mechanical field:

PROJECTS THAT WE ARE INVOLVED

01 Lens İstanbul Kurtköy	02 Küçükyalı Turkcell Additional Cooling Line
03 Temalife Ümraniye	04 Cookshop Water Garden Shopping Mall
05 Hamton By Hilton Kurtköy	06 Kaynarca Sports Complex
07 Velibaba District Center	08 BASF Chemistry
09 Akfırat 29 Villa	10 Riva Dream Valley
11 Kartal Soup Kitchen	12 Pendik Sacrifice Place
13 Yıldız Group Yakacık Balkon	14 Yıldız Group Yakacık Manzara
15 Genç Petrol Gebze BP Gas Station	16 Kana Dyeworks Factory
17 Sinai İmalat Otomotiv	18 Montenegro Lodge (Mega Construction)

BASIC STRUCTURES

Basi Structures of buildings and factories , revetments,slab on grades, Gas stations, steel construction applications.

FINISHING CONSTRUCTION WORKS

Wall,Plaster installations,Alums, Ceramic ,Marble , Roof tile , Window Joinery, Painting applications.

ROOF

Roof Constructions, Mebran, Tile, Methal coating applications .

CEILING FLOOR – PARTITION WALL

Wallboard Ceiling floor , Methal Wallboard , Tenter Wallboard ,Partition wall Ceiling floor , Decorative partition Wall , Glass partition Wall applications.

FRONTAL

Frontal Glass cladding , Composite, Stainless, Frontal Ceramic , Jacketing applications.
